These unique wood species offer a range of grain patterns from mild, evenly colored English Sycamore, Quartered Cherry and Wenge to decidedly wild American Red Gum and Zebrawood.

We put a natural finish on each so that the full effect of natural variations in color, texture and grain may be appreciated.

EXOTIC WOOD VENEERS

American Red Gum

Red Gum veneer will range in color from pale, pinkish brown to deep red, and may include blue-gray tones and even dark brown or black streaks. The bold, prominent grain patterns will vary between door and drawer fronts on the same cabinet and on adjacent cabinets, yielding a colorful, dramatic appearance. The American Red Gum doors at right are a great example of how unpredictable and beautiful this North American hardwood is!

Staccato is a 3-piece door with vertical grain “stiles” and a horizontal grain center panel. Strata is available in the combinations shown below.
